Use Determination & Recommendation:

Has the use existed since November 28, 1975? ☐ Yes ☐ No ☒ Unknown

Comments: The UAA survey was conducted in April 2008 and no evidence of WBCR was observed. Photographs show homes being in close proximity to the stream. No interviews were conducted.

Is the evaluated use attainable? ☐ Yes ☒ No

Comments: The stream did not meet the maximum or median depth criteria. Because the depth criteria were not met, the committee recommends that the WBCR use be removed. Due to the close proximity of homes to the stream, the committee recommends that the secondary contact recreation use be assigned.

**Committee Recommendation:**

☐ Add Use ☐ Retain Use ☒ Remove Use  
☐ Modify Use ☐ Inconclusive
